Career Objectives:

As a proactive and detail-oriented Final-year B. Tech student specializing in data science, I am committed to leveraging my strong analytical abilities and proficiency in data visualization tools to contribute to meaningful projects and business outcomes. With a solid understanding of data analysis, statistical modelling, and machine learning, I am eager to apply my skills in a practical setting. I am seeking an internship or entry-level position where I can immerse myself in real-world data challenges, utilize my expertise in tools such as Python, R, SQL, and Tableau, and collaborate with a dynamic team. My goal is to support data-driven decision-making and contribute to innovative solutions that drive business objectives while gaining valuable hands-on experience to further develop my technical and analytical capabilities.

Education:

G. H. Raisoni College of Engineering, Nagpur

B.Tech. in Data Science

September 2023 - May 2026

Government Polytechnic, Bramhapuri

Diploma in Computer Technology

December 2020 - May 2023

Work Experience:

Internship:

- 1] Basic HTML And Java Application Development, IT NetworkZ Nagpur, India (Summer 2022) Worked on Java programming related Projects.
- 2] Web Development Intern at Prodigy Info Tech.
- 3] AI/ML Intern at CODEXINTERN.

Projects:

Class Project:

- Java Program to Display Human Face Using Applet Developed Java Program to Display Human Face Using Applet Designed and implemented a user interface using JavaFX
- Disease Prediction using Machine Learning
- Road accident prediction using Machine Learning
- (Final Year Project)-Personality-Adaptive AI Assistant for Mental Wellness and Productivity, also wrote Article on this.

Portfolio Website:

- Developed a personal portfolio website to showcase projects, skills, and experience.
- Built using TypeScript, JavaScript, and Node.js for interactive and dynamic functionality.
- Implemented responsive design for seamless viewing across devices.
- Showcased multiple projects with detailed descriptions and technology stacks.
- Integrated clean, modern UI to enhance user experience and engagement.

Skills:

- Familiar with SQL databases.
- Data Analysis
- Worked on Machine Learning Algorithms.
- Familiarity with front-end development technologies such as HTML, CSS, JavaScript, Typescript, React.js, Node.js.
- Experience with software development tools such as VS code.
- Knowledge About AWS and Cloud Services
- Teamwork

Achievement & Certification:

- Achieve certificate in INTERMEDIATE GRADE DRAWING EXAMINATION.
- Winner of catch the web in AI Odyssey'24.
- AWS cloud Practitioner Essentials (Tranning Certificate).
- Microsoft Learn Student Ambassador participation certificate.
- Certification Completion of Python 3.4.3 Tranning provide by III Bomby.
- Certification Completion of JavaScript Tranning provide by III Bomby.
